**W**e've been covering some of the work of French photographer Vincent Fournier for more than 10 years now, always loved his eye and compositions – For his stunning *Brasília, Modernist Utopias* series, Vincent and *Spazio Nobile* carefully selected 10 photographs to be presented at *Photo Brussels Festival* in close dialogue with *Atelier Jaspers's Modernist House*.

---

«My interest in Brasília comes from my fascination with myths and stories that question and explore the future, from science to architecture, to technology»

---
